Subject URGENT - do this "now", too.

I just discovered today that the email messages I've been sending, replying to and forwarding for the past week or so via my EPA-issued Blackberry have not, in fact, been sent to the designated recipients. While I'm dealing with the techies on this. . . .

I'm looking for APOs (preferably) and SCAFOs that allege **Count 1 - Operating without a permit /90 day** and three or more of "the usual cascading violations" such as open containers, training, contingency plan, AABBC. Bonus points for one that alleges 268.50 violations at the end. Extra bonus points for one in a state that incorporates 40 CFR by reference. I need e-copies ASAP!!!!

Shoot for cases within the last five years or so. But I'll take what you've got.

THANKS.

P.S. Now I understand why nobody was answering my emails!!!!
